HandPure

HAND MASK

Intense Anti-Aging+Moisturizing Treatment

Deep conditioning premium gloves that provide immediate relief and hydration for dry hands.

Leaves skin smoother and younger looking.

HandPure Hand Mask protects hands from the many causes that strip skin of its natural protective barrier. Cold weather, dry heat, bathing and anti-bacterial soap can cause hands to become red, flaky and lose their smooth and supple texture.

HandPure is an easy-to-apply, no-mess solution that will rejuvenate hands.

This all-in-one treatment is a perfect add-on to any spa/salon service and can be used as a waterless manicure treatment.

Hands will be noticeably improved and more radiant.
